Profile	Frontend developer with 5 years of expertise in JavaScript, React, and NextJs. Focused on building scalable, high-performance applications while continuously expanding knowledge in modern web technologies.

Employment History

Dec 2021 – Present

Frontend developer, Oloom Sabz   Tehran

Frontend React developer for Oloom Sabz project, utilizing Next.js and Mui and other tech to create seamless user experiences. Collaborated with talented team to design and implement reusable components for intuitive, responsive web applications. Excited to leverage skills in future projects for exceptional user experiences.

Nov 2020 – Dec 2021

Self-employed   Tehran

As a self-employed Frontend React Developer, I specialize in crafting visually appealing and user-friendly interfaces using the React framework. With a keen eye for design and a passion for creating seamless user experiences, I bring a unique blend of creativity and technical expertise to my projects. Through my self-employment, I have honed my skills in frontend development, delivering high-quality solutions that meet client needs and exceed expectations.
