About Me

Frontend Developer with 5+ years of hands-on experience building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Proven track record of delivering responsive, user-focused interfaces with modern tools including Material UI, Tailwind CSS, and React Query. Skilled in performance optimization, consistently achieving 95+ Lighthouse scores and applying best practices for web performance and accessibility. Strong collaborator with expertise in monorepo architecture, component-driven development, and test automation using Jest and Cypress.

Experience

Frontend Developer

Dec 2021 – Jan 2026

Oloom Sabz (Green Sciences Co LTD)

Architected and developed production-ready React applications using Next.js, TypeScript, and Material UI for 10,000+ users, while designing a reusable Storybook-based component library that reduced development time and ensured consistent UI/UX. Optimized performance to reach 95+ Lighthouse scores, built responsive, accessible interfaces with Tailwind CSS and Material UI, and integrated Redux and React Query to improve data fetching efficiency. Implemented automated testing with Jest and Cypress to cut production bugs, contributed to a monorepo setup with Webpack and Vite, collaborated closely with cross-functional teams in an Agile environment, and mentored junior developers on React, TypeScript, and modern frontend architecture.

Frontend Developer

Dec 2020 – Dec 2021

Veetechs

Delivered 12+ custom React applications for clients in e-commerce, healthcare, and education, creating pixel-perfect, responsive UIs from Figma/Adobe XD designs using React, CSS3, and modern JavaScript. Implemented robust forms with React Hook Form and Redux, built real-time KPI dashboards with ApexCharts and Chart.js, optimized performance with lazy loading and code splitting, integrated RESTful APIs, and managed projects end-to-end with clear client communication.

Skills

Core Technologies: JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js, Redux, React Query, React Hook Form

UI Frameworks & Libraries: Material UI (MUI), Tailwind CSS, Shadcn, Styled Components, Responsive Design

Development Tools: Git, Webpack, Vite, Storybook, Monorepos, TinyMCE

Testing & Quality: Jest, Cypress, Lighthouse, Web Performance Optimization, Core Web Vitals

Visualization: ApexCharts, Chart.js, Data Visualization

DevOps & Deployment: CI/CD Pipelines, Version Control, Agile Methodologies

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Code Review

Education

Bachelor of Science in Material Science and Engineering

Semnan University

Sep 2016 – Sep 2020

Completed comprehensive studies in materials science, building a strong analytical and problem-solving foundation while participating in research projects involving data analysis, technical documentation, and collaborative teamwork, and developing transferable skills in systematic thinking, attention to detail, and complex problem decomposition.
